### What Can I Do?

When we have a big goal in mind, it can be frustrating to not achieve it quickly. Sometimes, the goals require input from others. Sometimes the goals require output from others. How do we get them to move on our timeline?

Usually, we can't. Generally, your building permit won't be approved faster because you really want it. Your doctor won't be in your exam room sooner because you're impatient. What now?

It can be useful to make a list of all the things you need to do to reach your goals. If you've done everything you can do and you're waiting on others, it just might be okay to set this aside. Why stress and worry over something that you can't impact?

### Go Forth and Be Awesome

Admire. Enjoy. Emulate. Aspire.

Maybe, don't pick a singular hero.

Heroes walk among us. When a person looks like a hero, someone we want to be, chances are good that we're seeing just their awesome, not their humanity.

We're all just flawed humans as discussed here: [360-Clarity.com/blog](https://360-Clarity.com/blog)

## Something Extra

Sometimes we're driven and on task 100%.

Other times we KNOW what we should be doing, yet we don't. Why?

Procrastination.

It's not always bad, but there are reasons. Three reasons for procrastination can be found [here](#).
